Subject: Microsoft Settlement.

I urge you to settle this case on what is now before the Court. Too much time and money have been spent upon this case to date. Let's get it behind us so this Company can get onto productive activities, and thus produce profits and positive cash flows so that additional technical developments and innovations can be advanced. This will then aid all of us in increasing our productivity, thus producing additional profits upon which we will have to pay additional taxes--again help all.

Respectfully,

Bill Humke
